Summary

Frontend Developer specializing in **React.js** and **JavaScript (ES6+)**, with experience building responsive, API-driven web applications and reusable UI component libraries. Skilled in debugging, deployment, and performance optimization. Actively contribute coding challenges to NamasteDev's practice platform, helping developers strengthen **React** and **JavaScript** skills

Technologies

Languages: JavaScript (ES6+), TypeScript (Basic)

Frontend: React.js, React Router, Framer Motion, Responsive Design, HTML5, CSS3, SCSS

Backend & Database: Node.js, Express.js, REST APIs, MySQL

Testing: Jest (Unit Testing - Basic)

Tools & Platforms: Git, GitHub, Vercel, Railway, Render, Chrome DevTools

Soft Skills: Problem Solving, Adaptability, Collaboration, Attention to Detail

Projects

WidgetHub | React, SCSS, Framer Motion

[🔗 Live Demo](#) | [🔗 GitHub](#)

- Built a dynamic React-based UI component library featuring **20+ interactive** UI elements like Accordion, Load More Data, Password Generator, and more.
- Implemented a **grid card layout** with previews, descriptions, and dedicated component pages,
- Integrated React Router for smooth navigation and Framer Motion for engaging animations, ensuring reusable and scalable UI components.

MovieList | React, CSS, REST API

[🔗 Live Demo](#) | [🔗 GitHub](#)

- Developed a **movie discovery app** powered by a public REST API, displaying real-time movie details (titles, posters, descriptions).
- Enabled **search**, **favorites (localStorage)**, and **pagination** (20 items/page) for scalability and usability.
- Enhanced data fetching and state management for fast, responsive browsing across 1,000+ movies.

Experience

CodeClause – Web Development Intern

[🔗 Live Demo](#) | [🔗 GitHub](#)

May 2025 - Jun 2025

- Designed and developed a full-stack Pet Selling System using **React.js**, **Node.js**, **Express**, and **MySQL**
- Built backend and database development for the first time, resolved critical backend issues like database connection errors and deployment crashes during setup of **Render** and **Railway**
- Delivered end-to-end functionality by integrating frontend and backend systems, ensuring reliability and scalability.

Contribution

NamasteDev – Practice Platform Contributor

[🔗 Check Problems](#)

July 2025 - Ongoing

- Contributed 12+ coding challenges for the NamasteDev Platform, including 5 published and 8 under review.
- Designed problems with structured descriptions, hints, solutions, and test cases following platform guidelines
- Focused on React.js and JavaScript topics to help learners build hands-on coding skills.

Education

University of Mumbai (Sept 2020 – May 2024)

Bachelor of Engineering

Certifications

Responsive Web Design – FreeCodeCamp (2024), Complete Web Development Course – Udemy (2024)
