Summary

Entry-Level Web Developer with strong expertise in building scalable web applications using **React.js** and modern **JavaScript**, complemented by backend experience in **Node.js**, Express, and relational databases. Shipped **SwiftFlow**, a production ready privacy first Chrome extension with offline storage, real-time search, bulk actions, and responsive UI, showcasing end to end development and strong problem-solving. Authored 22+ coding challenges for **NamasteDev**, impacting 7500+ learners with clear, testable solutions.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, SQL

Frontend: React.js, HTML5, CSS3, Bootstrap, SCSS, Responsive Design, React Router, Next.js, Tailwind CSS

Backend & Database: Node.js, Express.js, REST APIs, MySQL

Tools: Git, GitHub, Framer Motion, Jest, Vercel, Railway, Render, Chrome DevTools

Design Tools: Figma (UI/UX Implementation)

Projects

SwiftFlow | Chrome Extension, Manifest V3, JavaScript (ES6+), HTML5, CSS3,

[🔗 View Chrome Extension](#)

- **Built and shipped** a privacy-first Chrome extension that addresses default **bookmark limitations**, enabling instant saves, category-based organization, and searchable notes, all offline and account-free.
- Created a real-time search, bulk actions, soft delete trash and JSON import/export for efficient management.
- Delivered a lightweight, Manifest V3-compliant extension with robust edge-case handling and responsive popup UI for an intuitive experience.

WidgetHub | React, SCSS, Framer Motion

[🔗 Live Demo](#) | [🔗 GitHub](#)

- Built a dynamic React-based UI component library featuring **20+ interactive** UI elements like Accordion, Load More Data, Password Generator, and more.
- Implemented a **grid card layout** with previews, descriptions, and dedicated component pages.
- Integrated React Router for smooth **navigation** and Framer Motion for engaging animations.

Experience

NamasteDev – Practice Platform Contributor

[🔗 View Published Challenges](#)

Jul 2025 - Dec 2025 - Remote

- Authored 22+ coding challenges, with 16 published live and attempted by **7500+** learners (successfully solved 5500+ times) generating **45k+ total views**
- Designed structured React.js and JavaScript coding challenges with clear problem descriptions, hints, solutions, and test cases to support hands-on, interview-oriented learning.

CodeClause – Web Developer Intern

May 2025 - Jun 2025 - Remote

- Designed and developed a full-stack Pet Selling System using **React.js**, **Node.js**, **Express**, and **MySQL**
- Built backend and database development for the first time, resolved critical backend issues like database connection errors and deployment crashes during setup of **Render** and **Railway**

Open Source & Community Contributions

Hacktoberfest 2025 – Open-Source Contributor

[🔗 View Pull Requests](#)

- Contributed to **4 open-source projects** under Hacktoberfest by improving UI components, refining documentation, and refactoring code structure for better maintainability

Education

University of Mumbai (Sep 2020 – May 2024)

Bachelor of Engineering

Certifications

Responsive Web Design – FreeCodeCamp (2024), Complete Web Development Course – Udemy (2024)
